Hazard Mitigation Grant Program

Citizen-Centric Report for Fiscal Year 2022

Office of the Governor- Hazard Mitigation Grant Program

The Office of the Governor- Hazard Mitigation Grant Program works with FEMA to develop hazard mitigation plans and implement Hazard Mitigation Assistance (HMA) projects to help the CNMI rebuild, reduce or mitigate future disaster losses.

FEMA Hazard Mitigation Assistance Grants

FEMA's hazard mitigation assistance provides funding for eligible mitigation measures that reduce disaster losses. FEMA has three Hazard Mitigation Assistance programs: Hazard Mitigation Grant Program (HMGP), Building Resilient Communities and Infrastructure (BRIC), and Flood Mitigation Assistance (FMA).

Hazard mitigation is defined as any sustainable action that reduces or eliminates long-term risk to people and property from natural hazards and their effects. Hazard mitigation planning breaks the cycle of disaster damage, reconstruction, and repeated damage. Hazard mitigation includes long-term solutions that reduce the impact of disasters in the future.

Hazard Mitigation Grant Program

FEMA's **Hazard Mitigation Grant Program (HMGP)** provides funding to state, local, tribal and territorial governments so they can develop hazard mitigation plans and rebuild in a way that reduces, or mitigates, future disaster losses in their communities. When requested by an authorized representative, this grant funding is available after a presidentially declared disaster. All state, local, tribal and territorial governments must develop and adopt hazard mitigation plans to receive funding for their hazard mitigation projects.

Disaster Declaration

- DR-4511-MP COVID-19 Pandemic (declared March 13, 2020)
- DR-4404-MP Typhoon Yutu (declared October 26, 2018)
- DR-4396-MP Typhoon Mangkhut (declared September 29, 2018)
- DR-4235-MP Typhoon Soudelor (declared August 5, 2015)

Building Resilient Infrastructure and Communities

Building Resilient Communities and Infrastructure (BRIC) is an annually funded nationwide competitive program; a federal disaster declaration is not required. The program's guiding principles are supporting communities through

Next Steps

- Complete projects in progress on time.
- Await FEMA approval, Environmental and Historic Preservation approval, and grant awards up to \$81M for 33 projects under HMGP (DR-4396-M, DR-4404-MP, and DR-4511) and up to \$659K for BRIC (FY 20).
- Submit project applications for DR-4511-MP 404 HMGP and FY 21 BRIC.

Community Lifelines

A lifeline enables the continuous operation of critical government and business functions and is essential to human health and safety or economic security. Lifelines are the most fundamental services in the community that, when stabilized, enable all other aspects of society to function. Hazard mitigation activities must align with one of the community lifelines.

The seven Community Lifelines are categorized below:

Safety and Security - Law Enforcement/ Security, Fire Services, Search and Rescue, Government Services, Community

Safety, Food, Water and Shelter - Food, Water, Shelter, and Agriculture

Health and Medical - Medical Care, Public Health, Patient Movement, Medical Supply Chain, Fatality Management

Energy - Power Grid and Fuel

Communications - Infrastructure, Responder Communications, Alert Warnings and Messages, Finance, 911, and Dispatch

Transportation - Highway/ Roadway/ Motor Vehicle, Mass Transit, Railway, Aviation, Maritime

Hazardous Material - Facilities, HAZMAT, Pollutants, Contaminants
